WARRANTY REPLACEMENT PROCEDURE

All parts to be returned, which failed within the warranty period or not, must be tagged with an **RGA** (returned goods authorization) number. To obtain an **RGA** number, contact the service department with the model and ID number of equipment and a brief description of the part being returned. Upon receipt at the factory, shipping prepaid by customer, the part will be inspected. If factory inspection indicates failure was due to defect of material or workmanship, and the part failed during the warranty period, the part will be repaired or replaced and shipped prepaid by the factory via UPS ground service. Shipping arrangements other than UPS ground service will be invoiced to the customer. **If a warranty or exchange part is not received within 30 days after the RGA is issued, the customer must pay for the part.**

No warranty consideration will be given on parts not tagged with an **RGA** number.

No warranty consideration will be given on parts showing evidence of tampering or disassembly.

Replacement parts are warranted on faulty workmanship and materials for 30 days.
